

NASHIR ABDULLAH

nashirabdullah123@gmail.com | 7006744233 | Srinagar 190020

Profile

Flutter Mobile Developer with **4+ years of professional experience** building scalable, responsive, and production-grade iOS and Android applications. Specialized in clean architecture, Firebase, REST APIs, state management, payment integrations, maps, push notifications, and deploying apps to the Play Store and App Store. Strong problem-solver with experience across e-commerce, logistics, fintech, AI chatbots, education, healthtech, service platforms, and multi-vendor products.

Experience

Mobile Application Developer (Flutter) | NyurTech | Srinagar | 05/2025 - Current

- Engineered a Muslim calendar application delivering Hijri calendar access, prayer times, Qibla direction, notifications, and events.
- Contributed to Bulluin gold buying and selling workflows, supporting secure transactions, accurate pricing, and customer service operations.

Mobile Front-End Developer (Flutter) | Helprush | 11/2024 - 04/2025

- Transformed delivery and management of on-demand services through RushPro, an innovative service technology platform.
- Collaborated closely with back-end developers to ensure smooth data integration and functionality across platforms.
- Supported app launch and availability on the Google Play Store.

Mobile Front-End Developer (Flutter) | FastBeetle | Srinagar | 05/2022 - 10/2024

- Built FastBeetle Customer App features for seamless parcel booking, shipment tracking, and instant notifications.
- Enabled delivery partners to manage orders, optimize routes, and track earnings through FastBeetle Rider Plus App.
- Provided secure recharge, bill payment, and crypto-enabled transaction flows through DubaiPe.
- Helped ship user-friendly apps across App Store and Google Play Store.

Mobile Front-End Internship (Flutter) | RecimoTech Solutions | 09/2021 - 04/2022

- Worked on OneSnapp, a multi-vendor food delivery app for restaurants, vendors, orders, secure payments, and real-time delivery tracking.
- Built smooth customer flows for browsing nearby vendors, placing orders, and tracking deliveries.

Education

UNIVERSITY OF KASHMIR | Kashmir | 2018 - 2022

BACHELORS IN ENGINEERING: CSE

Projects

- **Breeders Hub** - E-commerce app where customers can buy pet food and book pet services with ease.
- **SpeedyKart** - One-stop shopping app covering fashion, electronics, groceries, home essentials, and product discovery.
- **Central University of Kashmir** - Student app features for online attendance tracking, live classes, notices, and engagement.
- **Book My Appointment** - Clinical appointment booking platform with separate apps for users and clinics.
- **DubaiPe** - Digital payment app for recharges, bill payments, and crypto-based transactions.
- **Bulluin** - Gold buying and selling application flows focused on secure transactions and accurate pricing.
- **AI Chatbot** - Context-aware chatbot using OpenAI with real-time WebSocket communication.
- **OneSnapp** - Multi-vendor food delivery app supporting vendor menus, order management, payments, and delivery tracking.
